

VISITATION GUIDELINES & POLICY

Updated March 9, 2021

Our first priority at Russellville Hospital is to be *focused on patient safety, the safety of our patient families, and employees*. With that in mind we have updated our visitation guidelines for family members and support persons. We appreciate your cooperation as we work together to keep your patient, your family members and our staff safe.

To enter our facilities, you must:

- Be 16 years of age and older.
- Check in and out at facility entrances.
- Be screened upon entry for symptoms of illness. Anyone exhibiting symptoms cannot enter.
- Wear a mask/face covering, observe social distancing and sanitize hands frequently.

To keep you informed

- Upon admission, a point of contact and communication plan will be set with a family member or support person age 16 and over. Daily updates will be provided, if desired.
- Virtual visitation is available
- The patient will provide a password for identification so that communication can take place between the hospital staff and family members.

Non COVID-19 patients, two (2) designated person is allowed to visit per day.

COVID-19 positive patients (including patients who are under investigation for COVID-19), visitation is restricted to end-of-life care or special circumstances. If supporting a COVID-19 patient, compliance with personal protective equipment is required.

Adults

- One to 2 persons are allowed during end-of-life care.
- It is important to stay in the room except for basic personal needs (ex: food/restroom).
- Please leave personal items in vehicle.
- Room size limits the use of additional chairs.
- Adult surgery patients who are admitted and stay overnight may have one (2) person after the patient is in their room.
- Visiting 8 a.m.- 6 p.m. daily. (Exceptions may be made for admissions after 6 p.m. by the nursing supervisor)

Adult ICU and COVID UNIT Guidelines

- Family call-in times for updates: **9:30 - 10:30 a.m.** and **9:30 - 10:30 p.m.** (256-332-1611)

Pediatric Patients

If you are supporting a pediatric patient in the Emergency Department, Med-Surg unit, or surgery please observe the following guidelines:

- Two (2) parents/caregivers are able to support the child with only two (2) person at the bedside at a time.
- Pediatric patients having surgery may have (2) parent/caregiver(s) at a time at the bedside. The caregiver(s) will return to their vehicle during the procedure, and then will be called back to recovery when the surgery is completed.

Emergency Department

- Patients NOT exhibiting COVID-19 symptoms are allowed one support person. However, visitation could be restricted according to the patient/support person's preference, patient condition, physician order, room type/size, and other situations identified by the clinical staff.
